Who We Are

Transforming Possibility into Progress

We are a next-generation IT consultancy, born in India and built for the world. We bring deep expertise in Artificial Intelligence, Digital Transformation, and Product Engineering.

Our Vision

A world where technology becomes a true enabler of business transformation where AI isn't just an initiative, but a strategic advantage.

Our Mission

Giving Smartness To Your Business. We help you get more from your current systems and teams through automation, performance improvement, and cost optimization.

Core Capabilities

AI Partnership & Engineering

Custom Development, AI Strategy, Product Design, MLOps, and System Architecture.

Digital Transformation

AI Strategy, Process Automation, Digital Modernization, Cloud & Data Strategy.

Optimization Services

Workflow Automation, FinOps (Cost Optimization), Performance Tuning, Data Workflow Enhancements.

Your AI Partner: Strategy to Scale

From clear roadmaps to market-ready products, we guide you through every phase of the AI journey.

1

Conceptualization

User Research & MVP Definition. We map the opportunity and ensure technical feasibility.

2

Development

Rapid Development & Testing. Custom ML Models and Enterprise Security integration.

3

Deployment

Optimization & Scaling. Cloud deployment and continuous performance monitoring.

90-Day Quick Wins: Our roadmap includes an action plan to deliver measurable ROI within the first quarter.

Building Scalable Platforms

Digital Transformation

We design solutions around your business goals.

- Business Process Automation (RPA)
- Cloud Migration & Cost Strategy
- Responsible & Ethical AI Alignment

Engineering Services

We accelerate time to market.

- Full-Stack Application Development
- Cloud-Native Platform Engineering
- DevOps, CI/CD & Quality Engineering

The SarivInfo Advantage

Why Choose Us? A partnership built on results, transparency, and shared outcomes.

Client-Centric

We begin with your business, not the tech stack. Solutions are context-aware.

Success Alignment

Engagements structured around your growth metrics, not just project closure.

Global + India

Global-grade innovation with unmatched cost-efficiency rooted in India.

Long-Term

We don't just deliver and disappear. We stay through scaling & optimization.

Transparent

We translate AI complexity into actionable business language.

Result Driven

Every solution is designed to drive clarity, adoption, and ROI.

Industry Growth Focus

FinTech

Problems: Lengthy KYC, fraud risks, siloed systems.

Solution: AI-Powered KYC, Real-time AML monitoring, ML credit scoring.

70%

FASTER ONBOARDING

80%

LESS FRAUD REVIEW

EdTech

Problems : High dropouts, manual grading, no personalization.

Solution: Adaptive learning engines, Predictive retention analytics, NLP assessment.

70%

DROPOUT REDUCTION

50%

LESS GRADING WORK

Empowering SMEs

Challenge: Manual processes draining profit, lean workforce.

- Process Automation (Accounting, HR)
- Demand & Sales Forecasting
- Churn Prediction

Measurable Impact

25–40% Savings & 30% Uplift in Business

Optimization Services

MLOps, Intelligent Automation, and Infrastructure Tuning to unlock new value.

SME Solutions

AI, Digital Transformation & Smart Engineering

Advance your business with smarter automation, analytics, and next-gen apps.

SME Industry Challenges

Limited IT & Data

Manual Processes

Customer Churn

Legacy Systems

Sariv's Solutions

Smart Automation

Advanced Analytics

Customer Retention

Scalable Apps

Cost Efficiency

Flexible Engagement Models

01

Strategic Workshops

Define business-aligned AI and digital goals.

02

4-Week Sprints

Validation, prototyping, and rapid planning.

03

Delivery Squads

Dedicated teams for execution and scaling.

04

Flexible Models

Outcome-based, T&M, or Build-Operate-Transfer.

We co-create, implement, and evolve alongside your business.
